INDEX TO VOLUME 8

Subjects

- Abdominal pain, liver abscess, gastric perforation of foreign object, 323-325
 Abdominal trauma, colonic perforation, Crohn's disease and, 340-341
 Accelerated idioventricular rhythms, myocardial infarctions and, electrocardiography in, 238-239
 Acetazolamide, acute mountain sickness, intermediate altitudes, military training, 7-10
 Acute mountain sickness, intermediate altitudes, military training, 7-10
 Aerosols, nebulized isoetharine, prehospital care of acute asthma, 512-514
 Aging, electrocardiography, 240-245
 Agricultural trauma, emergency care, central Wisconsin, 528-530
 Airway
 parotitis, simultaneous epiglottitis, 200-202
 upper, obstruction, percutaneous transtracheal ventilation, 184-189
 American Association of Poison Control Centers National Data Collection System, 1989 annual report, 394-442
 Amoxapine, overdose, diagnostic pitfalls, 335-337
 Amphetamines, toxicity, protection against, 105-108
 Analgesia, midazolam, use in emergency department, 97-100
 Anesthesia, midazolam, use in emergency department, 97-100
 Aneurysm, false, subclavian artery, associated with brachial plexus palsy, 129-133
 Angioedema, enalapril-induced, 124-126
 Angiography, artifacts, simulation of arterial pathology in acute trauma, 109-117
 Antidepressants, overdose, diagnostic pitfalls, 335-337
 Antihypertensive therapy, nonemergent hypertension, blood pressure decrease prior to, 27-29
 Antiretin, *Loxosceles reclusa* envenomation, 51-54
 Aortic rupture, blunt chest trauma, thoracic aortography, 92-96
 Aortography, thoracic, after blunt chest trauma, 92-96
 Appendicitis, evaluation with technetium-99m leukocyte scan, women, 373-378
 Arrhythmia
 aging electrocardiography, 240-245
 automatic implantable cardioverter-defibrillator, 342-347
 Arteries, angiographic artifacts, simulation of pathology in acute trauma, 109-117
 Artifacts
 angiographic, simulation of arterial pathology in acute trauma, 109-117
 electrocardiography, 391-393
 pacemaker, 546-547
 Artificial circulation, resuscitation from prolonged cardiac arrest, 55-67
 Asphyxia, traumatic, 212-215
 Asthma, acute, prehospital care with nebulized isoetharine, 512-514
 Atrial fibrillation, cardiac tamponade with, malignant pericarditis and, 531-533

- Atrioventricular block, electrocardiography, 149-151
Automatic implantable cardioverter-defibrillator, emergency care provider and, 342-347
Autopsy, death in the emergency department, 379-384
- Bacteremia, buccal cellulitis, pediatric, 542-545
Barosinusitis, frontal, 329-331
Barotrauma
 frontal sinus, 329-331
 upper airway obstruction, obstruction, percutaneous transtracheal ventilation, 184-189
- Behavioral emergency, Munchausen syndrome, 216-219
Benzodiazepines, use in emergency department, 97-100
Biomedical literature, peer review, 356-358
Blood glucose reagent strips, comparison of performance, 11-15
Bolus injection, circulation times and, during cardiac arrest, 190-193
Bone marrow, phenytoin loading effects, pigs, 181-183
Botulism, infant, 318-320
Bowel, irrigation, cocaine body-packer, 523-527
Brachial plexus, palsy, subclavian artery false aneurysm associated with, 129-133
Bradycardia, myocardial infarctions and, electrocardiography in, 238-239
Bradykinin, enalapril-induced angioedema, 124-126
Bretylum tosylate, lidocaine versus, experimental cardiac arrest, 492-495
Brucella meningitis, 40-42
Buccal cellulitis, pediatric, 542-545
Burns, lightning strike, hearing aid, 326-328
- Calcium channel blockers, prehospital use, severe hypertension, 282-284
Capnocytophaga canimorsus sp nov, sepsis, precipitous hypotension caused by, ER, 312-314
- Carbamate
 intoxication
 pharmacological and toxicological considerations in, editorial, 83
 pralidoxime treatment, 68-70
- Carbon monoxide, occult poisoning, screening hospital admissions, 301-304
Carboxyhemoglobin testing, occult carbon monoxide poisoning, screening hospital admissions from ER, 301-304
- Cardiac arrest
 circulation time during, bolus injection effects, 190-193
 dangers of defibrillation, injuries to emergency personnel, 101-104
 flunarizine effects, rat model, 1-6
 nontraumatic prehospital, ages 1 to 39 years, 87-91
 prolonged, emergency cardiopulmonary bypass for, 55-67
 pulseless, emergency department resuscitation effects, 118-120
 resuscitation, prehospital care in Helsinki, Finland, 359-364
- Cardiac tamponade, atrial fibrillation with, malignant pericarditis and, 531-533
Cardiomyopathy, dilated, chronic cocaine abuse and, 203-204
Cardiopulmonary bypass, emergency, prolonged cardiac arrest, 55-67
Cardiopulmonary resuscitation
 bolus injection, effects on circulation time, 190-193
 dangers of defibrillation, injuries to emergency personnel, 101-104
 emergency department, pulseless cardiac arrest victims, 118-120
 prehospital care, Helsinki, Finland, 359-364
 prolonged cardiac arrest, 55-67
 retention of skills, family members of cardiac patients, 498-503
- Cardiovascular problems, continuous dialysis patients, 134-148
Cathartics, repetitive magnesium administration, serum magnesium concentration after, 297-300
Cerebral blood flow, acute therapy with clonidine and, severe hypertension, 293-296
Cerebral ischemia
 cardiac arrest, flunarizine effects, rat model, 1-6
 prolonged cardiac arrest, emergency cardiopulmonary bypass for, 55-67
Cerebral resuscitation, prolonged cardiac arrest, emergency cardiopulmonary bypass for, 55-67
Cervical spine
 cervicothoracic junction injury, 30-33
 radiographic evaluation, 30-33
Cervicothoracic junction, injury, 30-33
Charcoal, activated, gastric emptying in a self-poisoned patient, 479-483
Chest trauma
 blunt, thoracic aortography, 92-96
 traumatic asphyxia, 212-215
- Child abuse
 spiral tibial fracture, 234-237
 toddler's fracture, 208-211
- Children
 buccal cellulitis, 542-545
 emergency care, annotated bibliography of recent literature, 168-173
 foreign body aspiration, 348-350
 intraosseous versus intravenous phenytoin loading, bone marrow and, 181-183
 leptomeningeal cyst, CT findings, 34-35
 spiral tibial fractures, 234-237
 toddler's fracture, 208-211
 urgent care center, telephone advice, 496-497
- Cholinesterase reactivators, pralidoxime treatment and, carbamate intoxication, 68-70
Chronic obstructive pulmonary disease, acute exacerbation of, theophylline in, 289-292
- Circulation
 artificial, resuscitation from prolonged cardiac arrest, 55-67
 time, bolus injection effects, during cardiac arrest, 190-193
Clonidine, acute therapy, severe hypertension, cerebral blood flow and, 293-296
Clostridium botulism, sudden infant death, 318-320
Cocaine
 abuse, chronic, dilated cardiomyopathy and, 203-204
 body-packer, whole bowel irrigation and, 523-527
Colonic perforation, mild trauma, patient with Crohn's disease, 340-341
Computed tomography
 epidural hematoma, unusual presentation, 538-541
 leptomeningeal cyst, 34-35
Conduction system disease, chronic cocaine abuse and, 203-204
Congestive heart failure, lightning strike, hearing aid, 326-328
Contact lenses, complications, 228-233
Coronary disease, electrocardiography, 240-245
Corticosteroids, septic shock, 152-161
Cost-effectiveness, West German EMS, 76-80
Critical care medicine
 emergency physician staffing, 194-199
 resources, 162-164

Crohn's disease, colonic perforation, mild trauma and, 340-341

CT, see Computed tomography

Death

causes in emergency department, 379-384

methylene chloride, 534-537

Death certificate, emergency department and, 379-384

Defibrillation, dangers, injuries to emergency personnel, 101-104

Dialysis, continuous, emergency in, 134-148

Diaphragmatic pacing, Pacemaker Twiddler's syndrome, 48-50

Diazepam, amphetamine toxicity and, 105-108

Digital block, phentolamine, reversal of epinephrine-induced vasospasm, 46-47

Diphenhydramine, overdose, accidental childhood death, 321-322

Dipstick urinalysis, errors in, 121-123

Disaster medicine, editorial, 368

Drug abuse, gastrointestinal drug smuggling, 523-527

Drug addiction, parental, subclavian artery false aneurysm, 129-133

Drug overdose, see Overdose

Drugs, endobronchial, optimal volume of, 504-508

Dysgonic fermenter-2, see *Capnocytophaga canimorsus* sp nov

Ectopic pregnancy, see Pregnancy

Electric countershock

automatic implantable cardioverter-defibrillator, 342-347

dangers, injuries to emergency personnel, 101-104

Electrocardiography

accelerated idioventricular rhythms, myocardial infarctions and, 238-239

aging, 240-245

artifacts, 391-393

pacemaker, 546-547

Electrolytes, abnormalities, continuous dialysis patients, 134-148

Electromechanical dissociation, cardiac arrest, bretylium tosylate versus lidocaine, 492-495

Emergency care systems

debilitating factors, 71-75

West Germany, efficiency and cost-effectiveness, 76-80

Emergency department

death in, 379-384

midazolam use in, 97-100

occult carbon monoxide poisoning, screening hospital admissions, 301-304

suspected drug overdose, quantitative serum toxic screening, 16-22

ultrasonography in, Japan, 443-445

Emergency medical services

see also Critical care medicine,

acute asthma, prehospital care with nebulized isoetharine, 512-514

agricultural trauma, central Wisconsin, 528-530

automatic implantable cardioverter-defibrillator, 342-347

career path, 162-164

busy urban system, injury profile of personnel in, 308-311

dangers of defibrillation, injuries to emergency personnel, 101-104

elderly patients and, editorial, 270-271

initiation of intravenous therapy, prehospital care providers, 305-307

refusal of prehospital evaluation and/or therapy, 509-511

retention of CPR skills, family members of cardiac patients, 498-503

tooth avulsion treatment, 351-355

Emergency physicians, manpower, formula for staffing, 194-199

Enalapril, angioedema induced by, 124-126

Encainide, myocardial infarctions and, electrocardiography in, 238-239

Endobronchial drug administration, optimal volume of, 504-508

Endotoxin, therapy of septic shock, 152-161

Endotracheal drug administration, optimal volume of, 504-508

Environmental medicine, annotated bibliography of literature, 1987-1989, 251-262

Epidural hematoma, unusual presentation, 538-541

Epiglottitis, simultaneous parotitis, 200-202

Epinephrine, vasospasm induced by, phentolamine digital block reversal of, 46-47

Ethchlorvynol, overdose, 246-250

Extracorporeal membrane oxygenation, prolonged cardiac arrest, emergency cardiopulmonary bypass for, 55-67

Extremities, angiographic artifacts, simulation of arterial pathology in acute trauma, 109-117

Facial cellulitis, pediatric, 542-545

Farm accidents, emergency care, central Wisconsin, 528-530

Fibronectin, septic shock, 152-161

Flunarizine, cerebroprotective effects, cardiac arrest, rat model, 1-6

Foreign body

aspiration, children, 348-350

gastric perforation by, hepatic abscess and, 323-325

Fournier's gangrene, adjunctive hyperbaric oxygen therapy, 385-387

Fracture

rib, trial of rib belts, 277-281

skull, traumatic air myelogram, 332-334

spiral tibial, children, 234-237

toddler, 208-211

Gastric emptying

editorial, 560-561

journal club, 265-269

Gastric lavage

gastric emptying, self-poisoned patient, 479-483

versus peritoneal lavage, hypothermia, 285-288

Geriatrics

electrocardiography, 240-245

emergency medicine and, editorial, 270-271

Glucose, blood, reagent strips for determination of, 11-15

Gout, initial presentation, polyarticular symmetric tophaceous joint inflammation, 43-45

Granulomata, pulmonary, Munchausen syndrome and, 216-219

Haloperidol, amphetamine toxicity and, 105-108

Head trauma

epidural hematoma, 538-541

traumatic air myelogram, 332-334

Hearing aid, destruction by lightning, 326-328

Hearing loss, hearing aid, lightning strike of, 326-328

Heat transfer, rate of, fresh frozen plasma, 475-478

Hemoperfusion, ethchlorvynol overdose, 246-250

Hemothorax, simple rib fracture, clinical trial of rib belts for, 277-281

Hiatal hernia, incarcerated, obstruction of, 388-390

Hydrothorax, tension, shock and, malignant pleural effusion patient, 205-207

- Hyperbaric oxygen therapy, adjunctive, Fournier's gangrene, 385-387
- Hyperglycemia, clinical performance of blood glucose reagent strips, 11-15
- Hypermagnesemia, repetitive magnesium cathartic administration and, 297-300
- Hyperosmolar state, acute mannitol intoxication, 338-339
- Hypertension
 nonemergent, pharmacological therapy, blood pressure decrease prior to, 27-29
 severe, cerebral blood flow during acute therapy with oral clonidine, 293-296
 urgency, blood pressure decrease prior to initiation of therapy, 27-29
- Hypoglycemia, clinical performance of blood glucose reagent strips, 11-15
- Hyponatremia, mannitol intoxication, patient with normal renal function, 338-339
- Hypotension
 lightning strike, hearing aid, 326-328
 precipitous, caused by *Capnocytophaga canimorsus* sp nov, 312-314
 tachycardic response to, ruptured ectopic pregnancy, 23-26
- Hypothermia, gastric versus peritoneal lavage in, 285-288
- Immunotherapy, septic shock, 152-161
- Infant, botulism, 318-320
- Infection, continuous dialysis patients, 134-148
- Inflammatory bowel disease, colonic perforation, mild trauma and, 340-341
- Injury severity score, emergency medicine research, 484-491
- Inspiration-expiratory ratio, upper airway obstruction, percutaneous transtracheal ventilation, 184-189
- International abstracts, 81-82, 165-167, 555-557
- Intoxication
 amoxapine overdose and, 335-337
 mannitol, 338-339
- Intravenous therapy, initiation of, prehospital care providers, 305-307
- Isoetharine, nebulized, prehospital treatment of acute asthma, 512-514
- Leptomenigeal cyst, CT findings, 34-35
- Leukocyte scan, technetium-99m, evaluation of possible appendicitis, women, 373-378
- Lidocaine, bretylium tosylate versus, experimental cardiac arrest, 492-495
- Liver, abscess, gastric perforation of foreign object, 323-325
- Lockjaw, *see* Trismus
- Loxosceles reclusa*, envenomation, 51-54
- Lung, obstructive disease, theophylline in, 289-292
- Luxatio erecta, diagnosis, 315-317
- Lymphoma, cardiac tamponade, atrial fibrillation and, 531-533
- Magnesium, serum concentrations, after repetitive magnesium cathartic administration, 297-300
- Mannitol, intoxication, patient with normal renal function, 338-339
- Meningitis
 brucella, 40-42
 buccal cellulitis, pediatric, 542-545
- Methylene chloride, exposure and death, 534-537
- Midazolam, use in emergency department, 97-100
- Mountainous injuries, intermediate altitudes, military training, 7-10
- Munchausen syndrome, sudden death due to, 216-219
- Myelogram, traumatic air, 332-334
- Myoglobinuria, lightning strike, hearing aid, 326-328
- Naloxone, septic shock, 152-161
- Neurobrucellosis, brucella meningitis, 40-42
- Nifedipine, prehospital use, severe hypertension, 282-284
- Nitrate reagent test, false-positive, dipsticks stored in open containers and, 121-123
- Nuclear imaging, technetium-99m, evaluation of possible appendicitis, women, 373-378
- Obidoxime, carbamate intoxication, 68-70
- Overdose
 amoxapine, 335-337
 diphenhydramine, 321-322
 ethchlorvynol, 246-250
 mannitol, 338-339
 self-poisoned patient, gastric emptying in, 479-483
- Oximes, carbamate intoxication, 68-70
- Pacemaker
 failure, electrocardiography, 546-547
 Twiddler's syndrome, 48-50
- 2-PAM, carbamate intoxication, 68-70
- Paraesophageal hernia, incarcerated, 36-39
- Paramedics, busy urban, injury profile of personnel in, 308-311
- Parasystole, electrocardiography, 391-393
- Parotitis, simultaneous epiglottitis, 200-202
- Pediatric emergency medicine, *see* Children; Emergency medical services
- Pericardial effusion, atrial fibrillation, malignant pericarditis and, 531-533
- Peritoneal lavage, versus gastric lavage, hypothermia, 285-288
- Phentolamine, digital block, reversal of epinephrine-induced vasospasm, 46-47
- Phenytoin, intraosseous versus intravenous loading, bone marrow and, pigs, 181-183
- Plasma, fresh frozen, rapid thawing in two-liter bags, 475-478
- Pleural effusion, malignant, tension hydrothorax and shock in, 205-207
- Pneumocephalus, traumatic air myelogram, 332-334
- Pneumomyelogram, traumatic air myelogram, 332-334
- Poisoning
 occult carbon monoxide, screening hospital admissions, 301-304
 self-, gastric emptying in, 479-483
 suspected drug overdose, quantitative serum toxic screening, 16-22
 thallium, 548-550
- Polyarticular symmetric tophaceous joint inflammation, presentation of gout, 43-45
- Pralidoxime, carbamate intoxication, 68-70
- Pregnancy
 ectopic
 pitfalls in diagnosis, 515-522
 ruptured, tachycardic response to hypotension with, 23-26
- Prehospital care
 acute asthma, nebulized isoetharine, 512-514
 initial refusal of, 509-511
 initiation of intravenous therapy, prehospital care providers, 305-307
 nifedipine, severe hypertension, 282-284
 resuscitation, Helsinki, Finland, 359-364
- Propranolol, amphetamine toxicity and, 105-108
- Pseudoaneurysm, subclavian artery, associated with brachial plexus palsy, 129-133
- Pseudoarrhythmia, electrocardiography, 391-393

- Pulmonary contusion, traumatic asphyxia and, 212-215
Pulmonary function testing, simple rib fracture, clinical trial of rib belts for, 277-281
- Radiography, luxatio erecta, 315-317
Reduction technique, luxatio erecta, 315-317
Replantation, tooth avulsion, ER treatment, 351-355
Resource utilization, transportation medicine, 551-554
Respiratory distress, acute exacerbation of, theophylline in, 289-292
Revised trauma score, emergency medicine research, 484-491
Rewarming, trial, gastric versus peritoneal lavage, hypothermia, 285-288
Rib belt, randomized clinical trial, simple fractures, 277-281
Roentgenography, chest, foreign body aspiration in children, 348-350
- Second degree syndrome, electrocardiography, 149-151
Seizures
 amoxapine overdose and, 335-337
 diphenhydramine overdose, 321-322
Septic shock, therapy, 152-161
Shock, tachycardic response to hypotension, ruptured ectopic pregnancy, 23-26
Shoulder, dislocation, luxatio erecta, 315-317
Sinus, frontal, acute barotrauma, 329-331
Skin ulcer, *Loxosceles reclusa* envenomation, 51-54
Specialty teams, transportation medicine, 551-554
Splenectomy, precipitous hypotension, caused by *Capnocytophaga canimorsus* sp nov, 312-314
Sterile connective device, massive transfusion, rapid thawing of fresh frozen plasma, 475-478
Subclavian artery, false aneurysm, associated with brachial plexus palsy, 129-133
Sudden death
 emergency department, 379-384
 infant, botulism, 318-320
 Munchausen syndrome and, 216-219
Suicide, suspected drug overdose, quantitative serum toxic screening, 16-22
- Tachycardia
 preexcitation, electrocardiography, 149-151
 response to hypotension, ruptured ectopic pregnancy, 23-26
 ventricular, automatic implantable cardioverter-defibrillator, 342-347
- Tachycardia-bradycardia, electrocardiography, 391-393
Technetium-99m, leukocyte scan, evaluation of possible appendicitis, women, 373-378
Telephone advice, urgent care center pediatric, 496-497
Tetanus, trismus, 220-227
Thallium, near-fatal poisoning, 548-550
Theophylline, chronic obstructive pulmonary disease, acute exacerbation of, 289-292
- Tibia
 spiral fracture, children, 234-237
 toddler's fracture, 208-211
Tooth avulsion, treatment in ER, 351-355
Toxic screening, suspected drug overdose, 16-22
Transfusion, massive, rapid thawing of fresh frozen plasma, 475-478
Transportation medicine, critical care, 551-554
Trauma
 annotated bibliography of recent literature, 446-462
 leptomeningeal cyst, 34-35
 research, injury severity score, 484-491
Trismus, modern pathophysiological correlates, 220-227
TRISS method, emergency medicine research, 484-491
- Ultrasound, emergency departments in Japan, 443-445
Urinalysis, dipsticks stored in open containers, performance of, 121-123
- Vagina, rupture, spontaneous, 127-128
Vaginal bleeding, ectopic pregnancy and, 515-522
Vaginal evisceration, nontraumatic, 127-128
Vasoconstriction, epinephrine-induced, phentolamine digital block reversal of, 46-47
- Ventilation
 mechanical, near-fatal thallium poisoning, 548-550
 percutaneous transtracheal, 184-189
- Ventricular fibrillation
 automatic implantable cardioverter-defibrillator, 342-347
 experimental, bretylium tosylate versus lidocaine, 492-495
Verapamil, pediatric, electrocardiography, 149-151
- Wolff-Parkinson-White syndrome, electrocardiography, 149-151
- Yohimbine, amphetamine toxicity and, 105-108
Young patients, nontraumatic prehospital cardiac arrest, 87-91
